## Update Your Member Profile Using the *Change My Info* Area

By Thomas Key

Members who benefit most from the DoD Corrosion Exchange (DoDCE) have one thing in common—the current contact information in their member profile. Most members agree that one of the most important advantages of the DoDCE Community of Practice is the ability to communicate and collaborate with other corrosion professionals. Maintaining a current member profile is the most important thing a member can do to facilitate these member interactions.

To review and update your member profile, log in to the DoDCE, select the *Change My Info* link under the *My DoDCE* section, and then log in again for security reasons. From the *Change My Info* area, you may update your user information, organization, expertise, or change your password. In addition, the DoDCE system automatically prompts members every 180 days to update their member profiles. Contact the DoDCE Member Services Manager using the *Contact Us* feature on the DoDCE for more information.

### To review and update your member profile:

1. Log in to the DoDCE
2. Select the *Change My Info* link under the *My DoDCE* section
3. Log in again for security reasons.
